

Open Housing Statement of Understanding:

An upper-class student who is interested in living in Open Housing must acknowledge his/her understanding of the program requirements to be considered for placement.

Indicate type of Housing and Food Service (HFS) Contract that you have accepted:

Indicate Roommate Preferences (1 roommate selection for traditional or renovated residence halls, and 1-3 roommates for apartments and suites):

Name _____ Access Account _____

Name _____ Access Account _____

Name _____ Access Account _____

- I understand that Open Housing is not intended for students who are in a romantic relationship.
- I understand that I must submit a roommate preference to be assigned to Open Housing. The number of roommates depends upon housing option selected. Indicate preferred roommate(s) name(s) and Penn State Access Account(s). The housing option preferenced is not guaranteed for assignment.
- I understand that if a vacancy occurs in the assigned space, the student(s) remaining in the space will have the opportunity to request another roommate who agrees to these conditions. If another roommate is not able to be identified, the room will be converted to a single-gender room, and another roommate of the same gender will be assigned by the Assignment Office.
- I understand that if a student chooses to be reassigned from the room to another space on campus, or if a student is reassigned to another space on campus for administrative purposes, that there may no longer be an option to offer Open Housing. A student has the option to be reassigned to a single occupancy room, if available.
- I understand that if I am assigned to Open Housing, that I am not guaranteed to receive a Housing and Food Service (HFS) Contract offer for the next academic year. I must participate in the housing lottery process. The offering of Open Housing is not definitive every academic year.

- I have read and understand the above statements for Open Housing.

Student Name _____ PSU ID _____

Student Signature _____
